AG Balderas' Statement on President Trump's Proposal to Scale Back Transgender Rights

Albuquerque, NM – The Constitution protects the rights of all New Mexicans and all Americans. Today, Attorney General Hector Balderas responds to President Trump's proposal to scale back transgender rights in America:

"To discriminate against transgender Americans by regulating away their very identity is disgraceful," said Attorney General Hector Balderas. "I will continue to fight against every one of President Trump's anti-American and inhumane attempts to dehumanize and exclude vulnerable populations."
